SCOTT DIXON

The Scott Dixon – celebrating a motorsport legend

Louis Moinet presents the 'Scott Dixon', a two-pusher, automatic chronograph celebrating the championship-winning IZOD IndyCar Series racing driver. The Scott Dixon features high-visibility hands; tachymeter scale engraved on steel and carbon fibre bezel; chronograph pushers inset with carbon fibre; Indianapolis 500-inspired engraving on case back; and fitted with supple natural rubber or elegant black leather strap

The Scott Dixon was created in partnership with the three-time IZOD IndyCar Series Champion (2003, 2008, 2013) and 2008 Indianapolis 500 Winner.

This sporty, two-pusher automatic chronograph is packed with racing-refined features and offers exceptional legibility; a tachymeter scale engraved around the high-tech bezel made from stainless steel and carbon fibre; and chronograph pushers inset with carbon fibre and decorated with a chequered flag motif.

The caseback engraving of a winner's wreath evokes Dixon's 2008 *Indianapolis* 500 triumph, while two smart strap options are available: driver-friendly natural rubber or elegant black leather with bold red stitching.

"I am very excited and honoured to be a part of the Louis Moinet family. It's a brand with such an amazing history," says Dixon. "The chronograph we have created is a beautiful combination of great design, innovation and precision and I am proud to wear it both in and out of my Indy car."

Louis Moinet CEO and Creative Director, Jean-Marie Schaller, a passionate motorsport enthusiast, is equally thrilled to have worked with the New Zealander on this timepiece.

He says: "Scott Dixon is one of the greatest drivers in IZOD IndyCar Series history and he is still at the top of his game with plenty of years ahead of him on the track."

"Scott Dixon was the IZOD IndyCar Series Champion in 2003. Since 2007 he has never been out of the top three and, of course, he was series champion for a second time in 2008, the same year in which he won the Indianapolis 500. That for me makes him a living legend."

"It has been a real pleasure to collaborate with Scott on this Louis Moinet creation and his involvement ensures that we have a fitting addition to our Legends collection."

The Scott Dixon forms part of the Louis Moinet Legends collection, featuring timepieces developed in collaboration with an iconic figure who has made an indelible mark by excelling at the highest level in their respective field. Scott Dixon more than fits the bill.

The Scott Dixon is available in an exclusive limited edition of 365 pieces in stainless steel.

THE SCOTT DIXON IN DETAIL

Racing-refined dial and functionality

The Scott Dixon has been designed with racing drivers and motorsport enthusiasts in mind. The extremely legible dial has bright counters and bold hands and numerals that contrast superbly against a black backdrop. Rhodium-plated central hour and minute hands – filled with white Super-LumiNova glowing an eye-catching green in the dark – are accompanied by highly-reflective, metallised hour indices and there is a seconds subdial at 9 o'clock.

The central chronograph hand is complemented by a seconds chapter ring (measuring intervals down to an impressive quarter of a second), 30-minute counter at 3 o'clock and 12-hour counter at 6 o'clock. The counter hands are in visually-arresting red, as is the tachymeter scale engraved on the bezel, useful for calculating speed or distance when monitoring racing performance.

All three subdials contrast strongly against the jet black dial. The lower half of the dial features Geneva wave finishing reminiscent of the vertical grill design on historic racing cars. The dial is completed by the Louis Moinet logo at 12 o'clock and, naturally, Scott Dixon's signature logo at 5 o'clock, in a cool shade of blue reminding us that Scott's nickname is the "Iceman" due to his calm and contemplative manner.

The red and white on the dial are neatly evocative of the red and white IndyCars and driver's overalls that Scott has worn with such distinction while representing the Target-Ganassi Racing team over the past decade.

Racing-refined construction

The Scott Dixon case design takes its cues from recent developments in motorsport technology, with the six-screw, stainless steel case incorporating a high-tech, carbon-fibre lower bezel.

Carbon fibre is also used to form the inserts for the chronograph pushers at 2 o'clock and 4 o'clock. To enhance grip, the pushers have been engraved with a chequered motif reminiscent of the iconic finish-line flag that Scott has taken 29 times to date in his IndyCar career. The pushers take the form of champagne corks for a 'podium finish' experience – and in the case of Scott that means a lot of bubbly: So far Scott has been on the podium 48 times in the 90 races he has completed!

Racing-inspired display-back engraving

Turning the Scott Dixon over, the tinted sapphire crystal display-back reveals beautifully finished plates and bridges as well as a distinctive open-worked, black rhodium-plated, ball bearing-mounted winding rotor, the design of which echoes that of the brake discs on high-performance cars.

Around the periphery of the caseback, an *Indianapolis* 500 Winner's wreath is engraved – extremely appropriate because, as the accompanying inscription reminds us, Scott Dixon was the winner of this famous race in 2008. Also engraved are '2003', '2008' and '2013', the three seasons Scott was the IZOD IndyCar Series Champion.

Rarity

The Scott Dixon is available in a limited edition of 365 pieces, presented in a deluxe case with black, carbon fibre-style interior.

The Legend

Born in 1980, Scott Dixon is a modern-day motor racing hero. The New Zealander has won the IZOD IndyCar Series Championship twice, in 2003, 2008 and 2013, including the Indianapolis 500 race in 2008. Since 2007 he has never finished outside the top three in the IZOD IndyCar Series. He now has 29 wins and his ratio of wins to career starts is the all-time best of regular drivers in Indy car racing history. In recognition of his achievements, he was appointed Member of the New Zealand Order of Merit in 2012.

Technical specifications

Features and functions

Chronograph with tachymeter
High-legibility dial with Scott Dixon signature logo
Racing-refined functionality and case design
Racing-inspired display-back engraving

Hands

Rhodium-plated central hour and minute hands filled with Super-LumiNova
Highly-reflective metallised hour indices
Small seconds in subdial at 9 o'clock
Red central chronograph seconds hand
30-minute chronograph counter at 3 o'clock
12-hour chronograph counter at 6 o'clock
Tachymeter scale on bezel
Scott Dixon signature logo at 5 o'clock
Louis Moinet logo at 12 o'clock

Dial

From 9 o'clock to 3 o'clock: Black smooth
From 3 o'clock to 9 o'clock: Black with Geneva wave finishing

Movement and finishing

Louis Moinet automatic mechanical chronograph movement
Balance frequency: 28,800 vph / 4 Hz
Lines: 13 ¼
Power reserve: 44 hours
Number of jewels: 25
Blued steel screws

Case and strap

Case: Original Louis Moinet six-screw case design
316L stainless steel, polished and matte finishing
Carbon-fibre lower bezel
Tachymeter scale on bezel
Diameter: 45.60mm
Height: 17.10mm
Champagne cork chronograph pushers at 2 o'clock and 4 o'clock inset with carbon fibre and adorned with chequered flag motif
Patent-pending Louis Moinet crown
Water resistance: 50m
Crystals: Two sapphire crystals with anti-reflective treatment on both sides
Display-back featuring engraving of winner's wreath around periphery
Width between lugs: 24mm
Strap: Black natural rubber or black leather with red stitching
Buckle: Double folding clasp in 316L stainless steel

Deluxe presentation case

With black carbon fibre-inspired style interior
